

SCIENTIFIC PROGRAM

WEDNESDAY, 29 MAY

18.00–20.00 Registration desk hours

18.30–18.45 Welcome - 16 years of the D&CVD study group
Prof. Antonio Ceriello, Italy

18.45–19.15 Session I: State-of-the-art 2024
CHAIRPERSONS: PROF. ANTONIO CERIELLO, ITALY, PROF. JAN ŠKRHA, CZECH REPUBLIC

1. Novel insights regarding incretin mimetic drugs (GLP-1 and GIP receptor agonists)
Prof. Michael Nauck, Germany

19.30 Welcome Reception

THURSDAY, 30 MAY

8.00–16.00 Registration desk hours

9.00–10.30 Session II: Risk and markers
CHAIRPERSONS: PROF. ANTONIO CERIELLO, ITALY, PROF. JAN ŠKRHA, CZECH REPUBLIC

2. Is a new diabetes typology needed for the management of complications?
Dr. Patricia Zaharia, Germany
3. SCORE2-diabetes: the new gold standard for assessing 10y CV risk of individuals with type 2 diabetes in Europe?
Prof. Eberhard Standl, Germany
4. Glycation and chronic complications in diabetes: a 2024 update
Dr. Jan Škrha, jr., Czech Republic
5. Risk markers in cardiovascular disease
Prof. Aleš Linhart, Czech Republic
6. Discussion

10.30–11.00 Networking, coffee break, and poster viewing

11.00–12.30 Session III: Risk factors in diabetes associated with cardiovascular disease
CHAIRPERSONS: PROF. FRANCESCO GIORGINO, ITALY, DR. DARIO RAHELIC, CROATIA

7. Is obesity in patients with type 2 diabetes an additional risk factor for cardiovascular complications?
Prof. Martin Haluzik, Czech Republic
8. Dyslipidemia in patients with diabetes: major threat for cardiovascular health as well as opportunity to improve it!
Prof. Michal Vrablik, Czech Republic
9. Role of the improved blood pressure for development of cardiovascular disease in diabetic patients
Prof. Ondřej Petrák, Czech Republic
10. Smoking – common enemy for glucose metabolism and cardiovascular disease
Prof. Jan Škrha, Czech Republic
11. Discussion

12.30–13.30 **Networking, lunch break and poster viewing**

13.30–13.55 **Industry sponsored symposium (Astra Zeneca)**

12. Heart Failure: and Diabetes Mellitus: Whose side is the ball on?

Prof. Jan Bělohávek, Czech Republic

14.00–15.30 **Session IV: New treatments change guidelines**

CHAIRPERSONS: PROF. EBERHARD STANDL, GERMANY, PROF. MARTIN PRÁZNÝ, CZECH REPUBLIC

13. GLP-1 based multi-agonists and cardiovascular outcomes

Prof. Francesco Giorgino, Italy

14. New cardioprotective therapies in type 2 diabetes: do they affect insulin resistance?

Prof. Nebojsa Lalic, Serbia

15. Key findings from a living network meta-analysis on new treatments for diabetes potentials for guidelines

Prof. Oliver Schnell, Germany

16. Panel discussion

15.30–16.00 **Networking, coffee break and poster viewing**

16.00–17.55 **Session V: Diabetes predicts complications**

CHAIRPERSONS: PROF. NEBOJSA LALIC, SERBIA, PROF. BARUCH ITZAK, ISRAEL

17. Interplay of sleep apnea syndrome and cardio-vascular disorders in diabetes

Prof. Paul Valensi, France

18. MAFLD, type 2 diabetes, and cardiovascular disease – three friends/enemies

Dr. Dario Rahelic, Croatia

19. Chronic complications in maturity onset diabetes of the young /MODY/

Prof. Štěpánka Průhová, Czech Republic

20. How to improve prognosis of diabetic patients with cerebrovascular risk

Prof. Aleš Tomek, Czech Republic

21. Diabetic kidney disease – call for early diagnosis and treatment in different stages

Prof. Ivan Rychlík, Czech Republic

22. Discussion

18.00–18.35 **Industry sponsored symposium**

23. Symposium by Novo Nordisk

FRIDAY, 31 MAY

8.30–12.00 **Registration desk hours**

9.00–10.40 **Session VI: Any way to prevention?**

CHAIRPERSONS: PROF. OLIVER SCHNELL, GERMANY, PROF. PAUL VALENSI, FRANCE

24. The metabolic memory is back, but now we can prevent

Prof. Antonio Ceriello, Italy

25. The cardio-renal-metabolic approach – should we treat to prevent?

Dr. Baruch Itzhak, Israel

26. How to prevent the progression and consequences of CKD in diabetes?

Prof. Per-Henrik Groop, Finland

16th Annual International Conference of the D&CVD Study Group

May 29–31, 2024
Prague, Czech Republic

27. Global perspective on diabetes mellitus

Prof. Peter H. H. Schwarz, Germany

28. Panel discussion – all the speakers with the audience

10.40–11.00 Networking, coffee break and poster viewing

11.00–12.10 Session VII: New technologies for the future of diabetes

CHAIRPERSONS: PROF. PER-HENRIK GROUP, FINLAND, PROF. AKHTAR HUSSAIN, NORWAY

29. Insulin patch pumps: do we need the tubing's anymore?

Prof. Martin Prázný, Czech Republic

30. Artificial intelligence to diagnose diabetic retinopathy and other eye diseases - lessons learned from a national screening programme

Dr. Jan Šoupal, Czech Republic

31. Modern technologies in children diabetes may prevent late complications in the adult age

Prof. Zdeněk Šumník, Czech Republic

32. Discussion

12.10–13.00 Session VIII: Short oral presentations and abstract awards

CHAIRPERSONS: PROF. EBERHARD STANDL & PROF. JAN ŠKRHA

13.00–13.30 General assembly and closing of the meeting

33. Announcement of the next annual meeting

34. End of the conference

Prof. Antonio Ceriello, Italy

13.30–14.30 Lunch and farewell
